

The better way to clean
Washing and Care Programs

EHRLE Washing and Care Programs

Main Programs

Cleaning with ActivePower Pearl MicroPowder

The main program of a vehicle cleaning is the high pressure cleaning with ActivePower Pearl MicroPowder.

This is the basic for further care and guarantee for satisfied wash customers.

The self-service high-pressure laundry with ActivePower Pearl MicroPowder ensures the best wash results

Optionally only with high pressure lance or alternatively with brush and/ or high pressure lance.

Rinsing

The rinsing process rinses the detergent residues of the ActivePower Pearl MicroPowder and dissolve dirt with cold, clear water. This serves as basic for further care steps. Optionally the rinsing program can be operated with decalcified or demineralised osmosis water.

Protection with UltraProtection®

UltraProtection® is sprayed onto the vehicle surface with the aid of decalcified and hot water. The vehicle surface is optimally protected and the water drips off the sealed car surface. The synthetic construction of the UltraProtection also prevents lubrication of the windshield wipers during rain.

High Gloss SuperFinish®

As final care program, EHRLE recommends rinsing with decalcified, demineralised osmosis water with addition of SuperFinish®. This program removes all remaining mineral deposits in a chemical way. A perfect shiny vehicle is the result of this maintenance after drying. Additional drying with a leather towel is not necessary.

Precleaning with SoftFoam and Brush

A possible first step of vehicle cleaning is the precleaning with brush and SoftFoam. The Soft Foam is applied to the vehicle with low pressure using the wash brush and provides very efficient cleaning of stubborn dirt, insect residues, etc.

Precleaning with SoftFoam and Lance

One more way of possible first step of vehicle cleaning is the precleaning with brush and SoftFoam. The Soft Foam is applied to the vehicle with low pressure using the wash lance. The SoftFoam provides very efficient cleaning of stubborn dirt, insect residues, etc.

Precleaning with ActivePower Pearl MicroPowder

Furthermore, EHRLE offers the possibility to carry out vehicle precleaning with ActivePower Pearl MicroPowder, the highly effective ultimate EHRLE cleaning detergent powder.

Cleaning with ActivePower Pearl MicroPowder

This program is used to clean the vehicle with Brush and ActivePower Pearl MicroPowder, the highly effective EHRLE cleaning detergent powder, which is permanently supplied with low pressure through the brush.

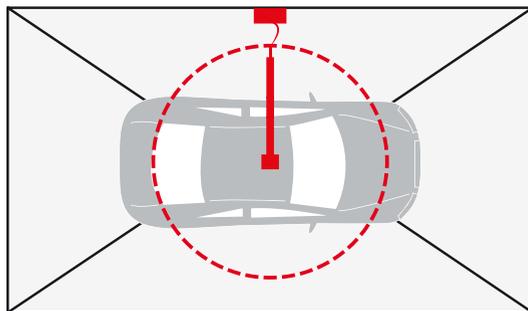

EHRLE Washing and Care Programs

EHRLE offers 10 Combinations of Washing and Care Programs:

System variant 1

- Cleaning with APPMP and high pressure lance
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

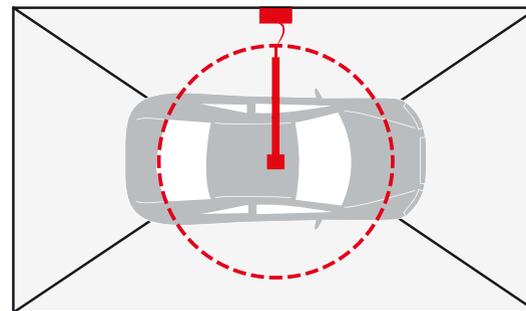

1/1/1 System: 1 Washing- and Care product on cleaning program, 1 water and chemical supply, 1 swivelling boom with lance

System variant 2

- Cleaning with APPMP and low pressure lance
- Cleaning with APPMP and high pressure lance
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

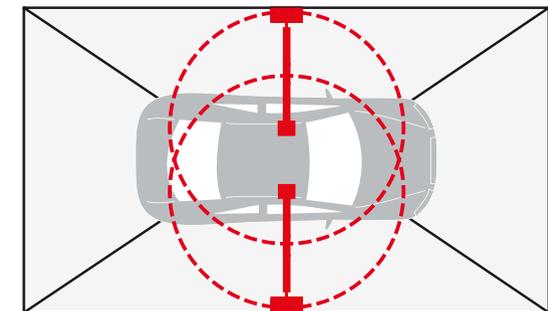

1/1/1 (Low Pressure) System: 1 Washing- and Care product on (pre-)cleaning program, 1 water and chemical supply, 1 swivelling boom with lance

System variant 3 SE

- Cleaning with APPMP and high pressure lance and foam brush
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

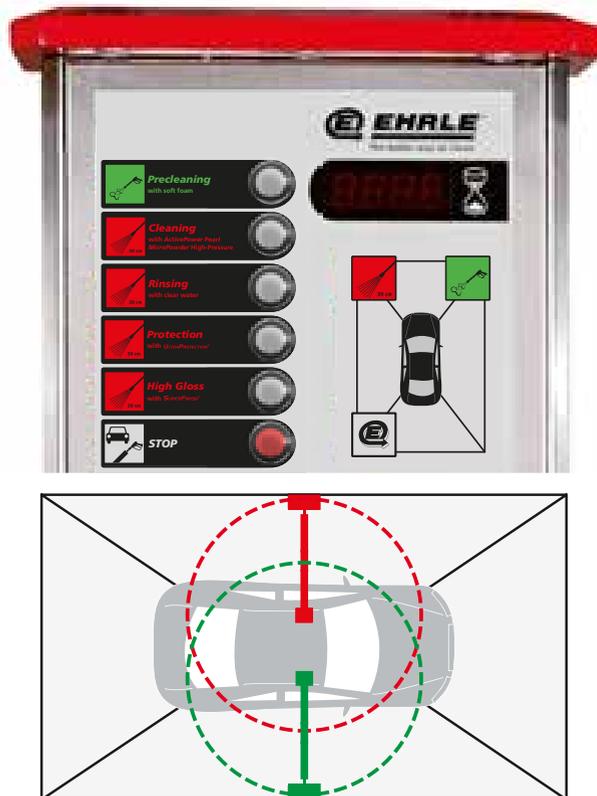

1/1/2 System (Suitable for warmer climates): 1 Washing- and Care product on cleaning program, 1 water and chemical supply, 2 swivelling boom with lance and foam brush

System variant 4

- Pre-cleaning with SoftFoam lance
- Cleaning with APPMP and high pressure lance
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

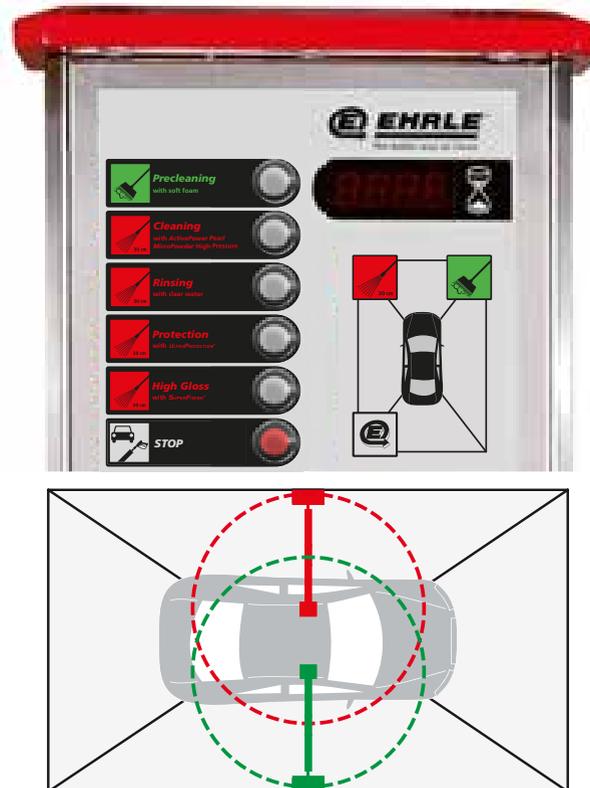

2 / 2 / 2 System: 2 Washing- and Care products on (pre-)cleaning program, 2 water and chemical supplies, 2 swivelling boom with lances

System variant 5

- Pre-cleaning with SoftFoam brush
- Cleaning with APPMP and high pressure lance
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

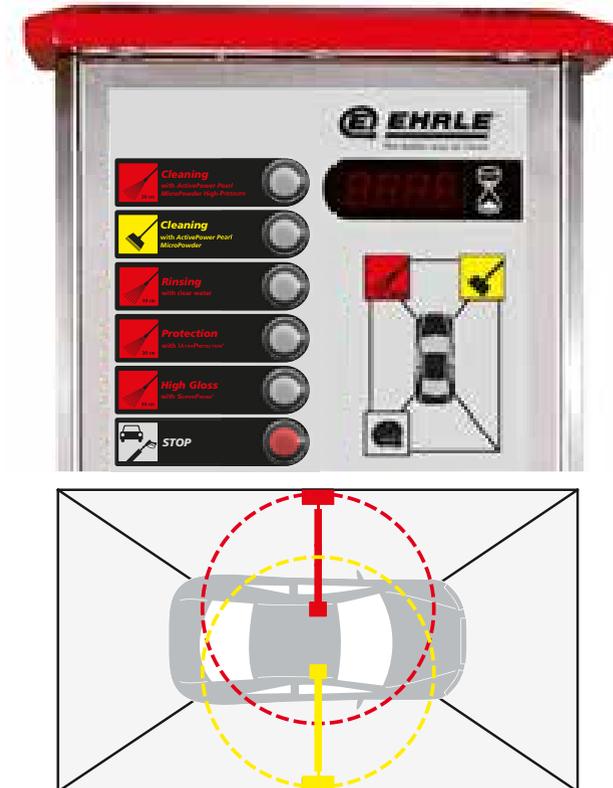

2 / 2 / 2 System: 2 Washing- and Care products on (pre-)cleaning program, 2 water and chemical supplies, 2 swivelling boom with lance and foam brush

System variant 6

- Cleaning with APPMP and high pressure lance
- Cleaning with APPMP and foam brush
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

1 / 2 / 2 System: 1 Washing- and Care product on cleaning program, 2 water and chemical supplies, 2 swivelling boom with lance and foam brush

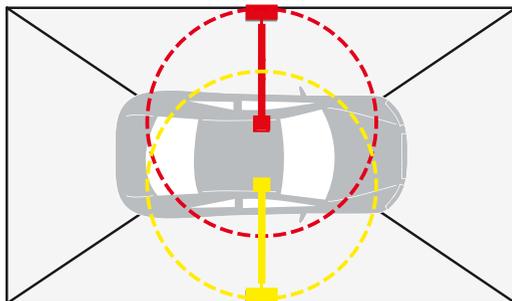

EHRLE Washing and Care Programs

EHRLE offers 10 Combinations of Washing and Care Programs:

System variant 7

- Precleaning with APPMP and low pressure lance
- Cleaning with APPMP and high pressure lance
- Cleaning with APPMP and foam brush
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

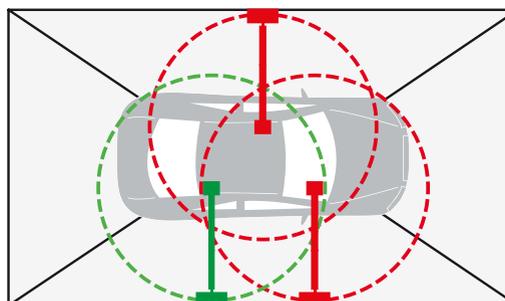

1 / 2 / 2 (Low Pressure) System: 1 Washing- and Care product on (pre-)cleaning program, 2 water and chemical supplies, 2 swivelling boom with lance and foam brush

System variant 8 SE

- Precleaning with SoftFoam lance
- Cleaning with APPMP and high pressure lance and foam brush
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

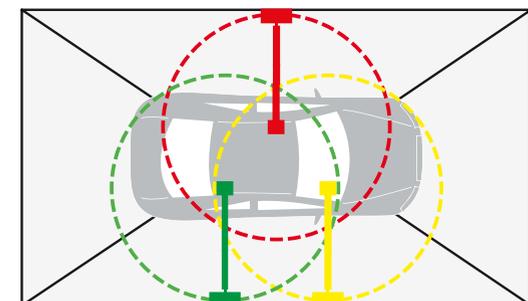

2 / 2 / 3 System (Suitable for warmer climates): 2 Washing- and Care products on (pre-)cleaning program, 2 water and chemical supplies, 2 swivelling boom with lance and SoftFoam lance

System variant 9

- Precleaning with SoftFoam lance
- Cleaning with APPMP and high pressure lance
- Cleaning with APPMP and foam brush
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance

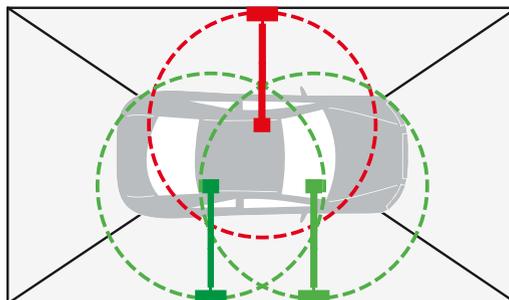

2 / 3 / 3 System: 2 Washing- and Care products on (pre-)cleaning program, 3 water and chemical supplies, 3 swivelling boom with lance, SoftFoam lance and foam brush

System variant 10

- Precleaning with SoftFoam lance
- Precleaning with SoftFoam brush
- Cleaning with APPMP and high pressure lance
- Rinsing with high pressure lance
- Protection with UltraProtection and high pressure lance
- High Gloss with SuperFinish and high pressure lance
